HOW TO READ YOUR HOROSCOPE

A beginner's guide to understanding your Vedic Astrology report.

1. The Birth Chart (Rasi Chakra)

The square chart represents the sky at your exact time of birth. In the South Indian style, the 12 boxes (houses) are always fixed. The top-left box is Pisces (Meenam), and the signs go clockwise. 'Lagna' (Ascendant) is your starting point—this is the 1st House, representing 'You'.

Zodiac Signs (Rasi)

Meenam	Mesham	Vrishabh am	Mithuna m
Kumbha m			Karkatak am
Makara m			Simham
Dhanus u	Vrischika	Thula	Kanya

2. The Houses (Bhavas)

Counting clockwise from your Lagna, each house rules a part of life. 1st: Self, 2nd: Wealth, 4th: Mother/Home, 5th: Children, 7th: Marriage, 9th: Luck/Father, 10th: Career, 11th: Gains.

Example: Finding the 12 Houses

12	1 (Lagna)	2	3
11			4
10			5
9	8	7	6

3. The Planetary Positions

The planets (Grahas) move through these signs. Their placement in a specific sign and house shapes your life's events. Benefic planets (Jupiter, Venus) bring ease, while Malefic planets (Saturn, Mars) bring challenges and growth.

4. The Dasha System (Timeline)

Vedic astrology uses Vimshottari Dasha, a 120-year cycle of planetary periods. Your life is divided into phases ruled by different planets. The planet ruling your current phase strongly influences your current life events.

HOW TO READ YOUR MATCHING REPORT

A beginner's guide to understanding Vedic marriage compatibility.

1. Ashta Koota (36-Point System)

This North Indian system evaluates 8 parameters (Varna, Vashya, Tara, Yoni, Graha Maitri, Gana, Bhakoot, Nadi). A score of 18 or above out of 36 is generally considered acceptable. Higher scores indicate better natural harmony.

2. Dashavidha Porutham (10-Point System)

This South Indian system checks 10 vital parameters. Some poruthams are critical—for instance, Rajju failure (longevity issues) or Vedha failure (severe obstacles) are often considered strict dealbreakers, regardless of the total score.

3. Dosha Analysis (Manglik / Kuja Dosha)

When Mars is placed in specific challenging houses, it causes Manglik Dosha, which can cause friction in marriage. However, if both partners have a similar Dosha intensity, the effects are mutually neutralized or cancelled out.

4. Paapa Samyam (Dosha Balancing)

This is the process of balancing malefic planetary points. The harsh points generated by Saturn, Mars, Rahu, Ketu, and the Sun in the boy's chart must not significantly exceed the points in the girl's chart for a peaceful life.

Example: Paapa Samyam Check	
Groom	Bride
35.5	36.0
✓ Balanced
